Microsoft Copilot Studio · about 40 minutes · 17 steps

Make an AI study helper for your course

Instructor: Faisal Iradat
Credits: Dr Shakeel Khoja, Shahid Hussain and Mahwish Ahmed

A chatbot that helps your students revise your course. It guides them with questions and hints instead of giving them the answers.

You will need

- Your IBA email address and password
- Your course outline, saved on your computer as a PDF file
- The tutor instructions from the workshop handout (Template 1)
- A pen, to tick each step when you finish it

How to use this guide

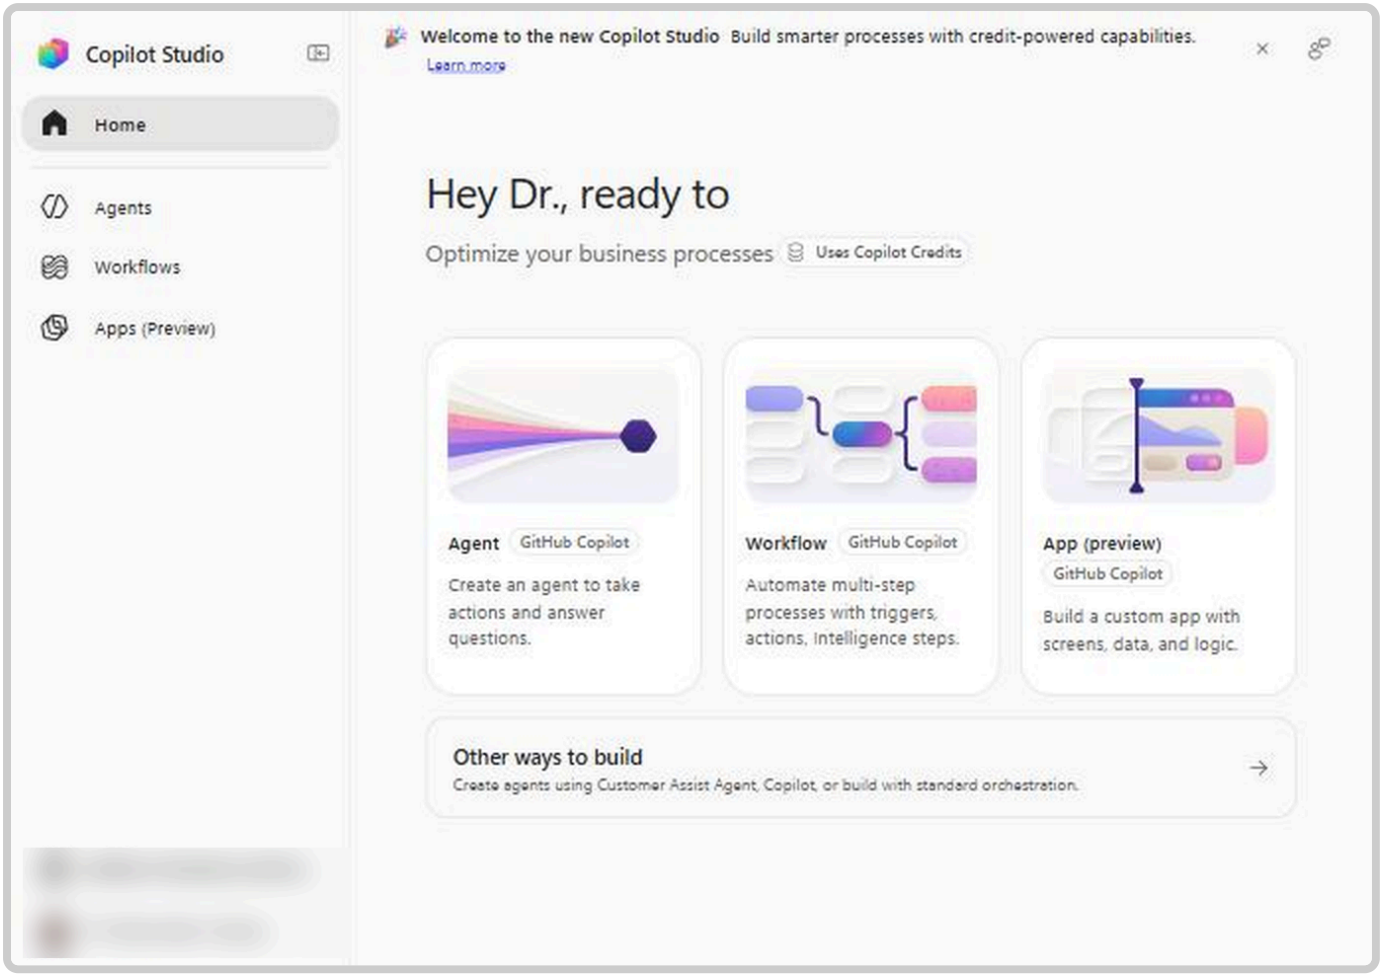

- There is one step on each page. Do what the page says, then turn the page.
- A red box shows where to click:

   Click inside the red box. The red arrow points to it.
- Under the big picture there is often a larger picture of the same place.
- Your screen may look a little different. Look for the same words.
- Take your time. Nothing breaks if you click the wrong thing.

Step 1 of 17

1 Open Copilot Studio

1. Open your web browser (Chrome or Edge).
2. Click the long box at the very top of the window, type **copilotstudio.microsoft.com** and press **Enter**.
3. Sign in with your IBA email and password.

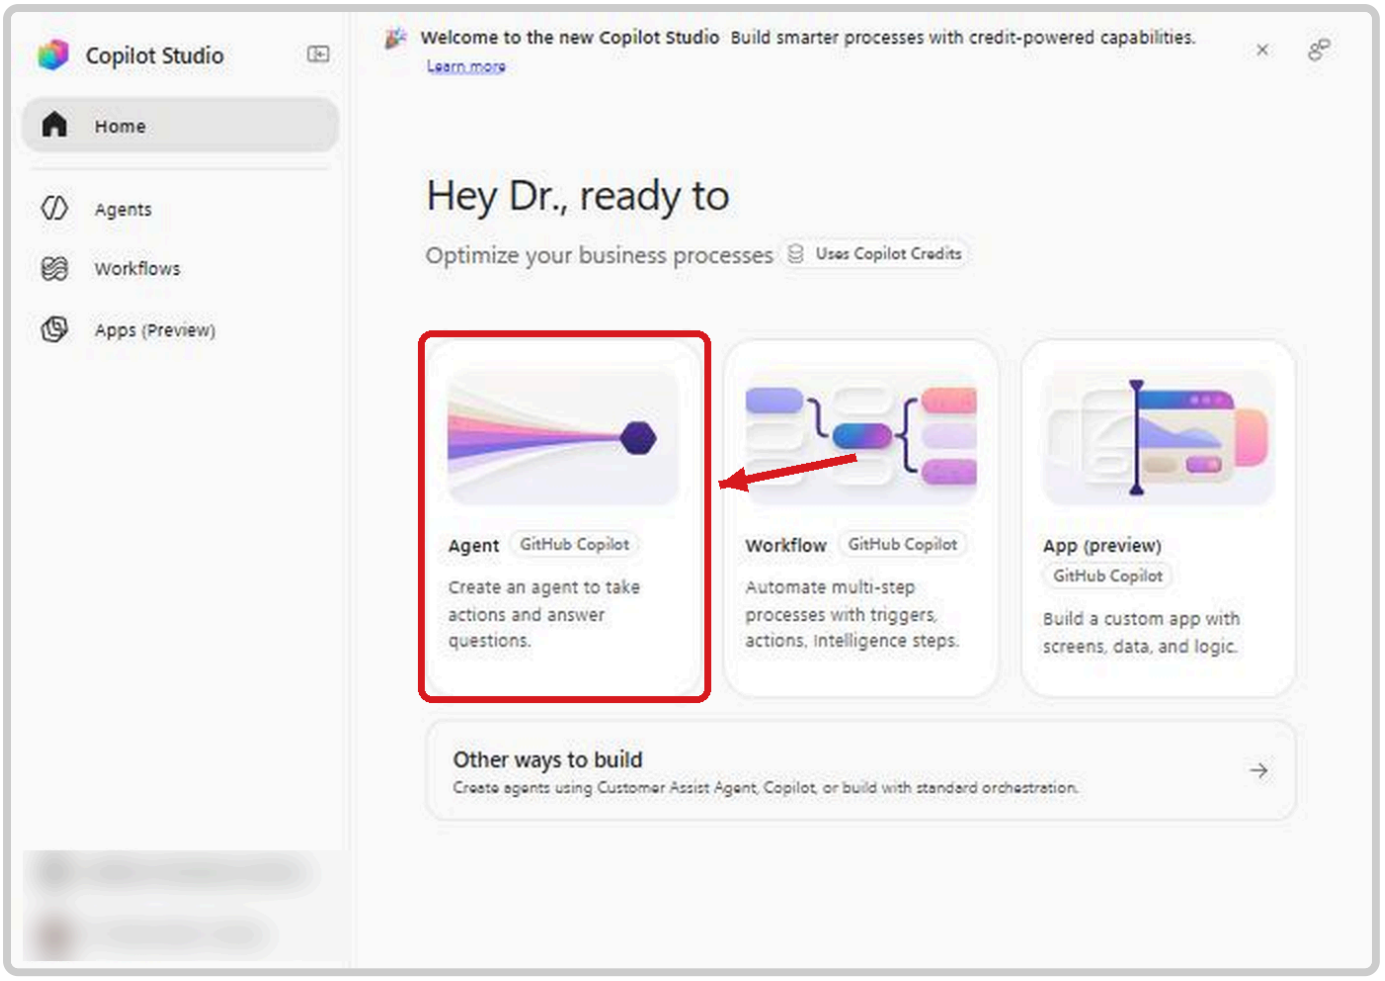

When you are signed in, you see this page.

☐ Done? Tick the box and turn the page.

Step 2 of 17

2 Start a new study helper

1. Click the box that says **Agent**.

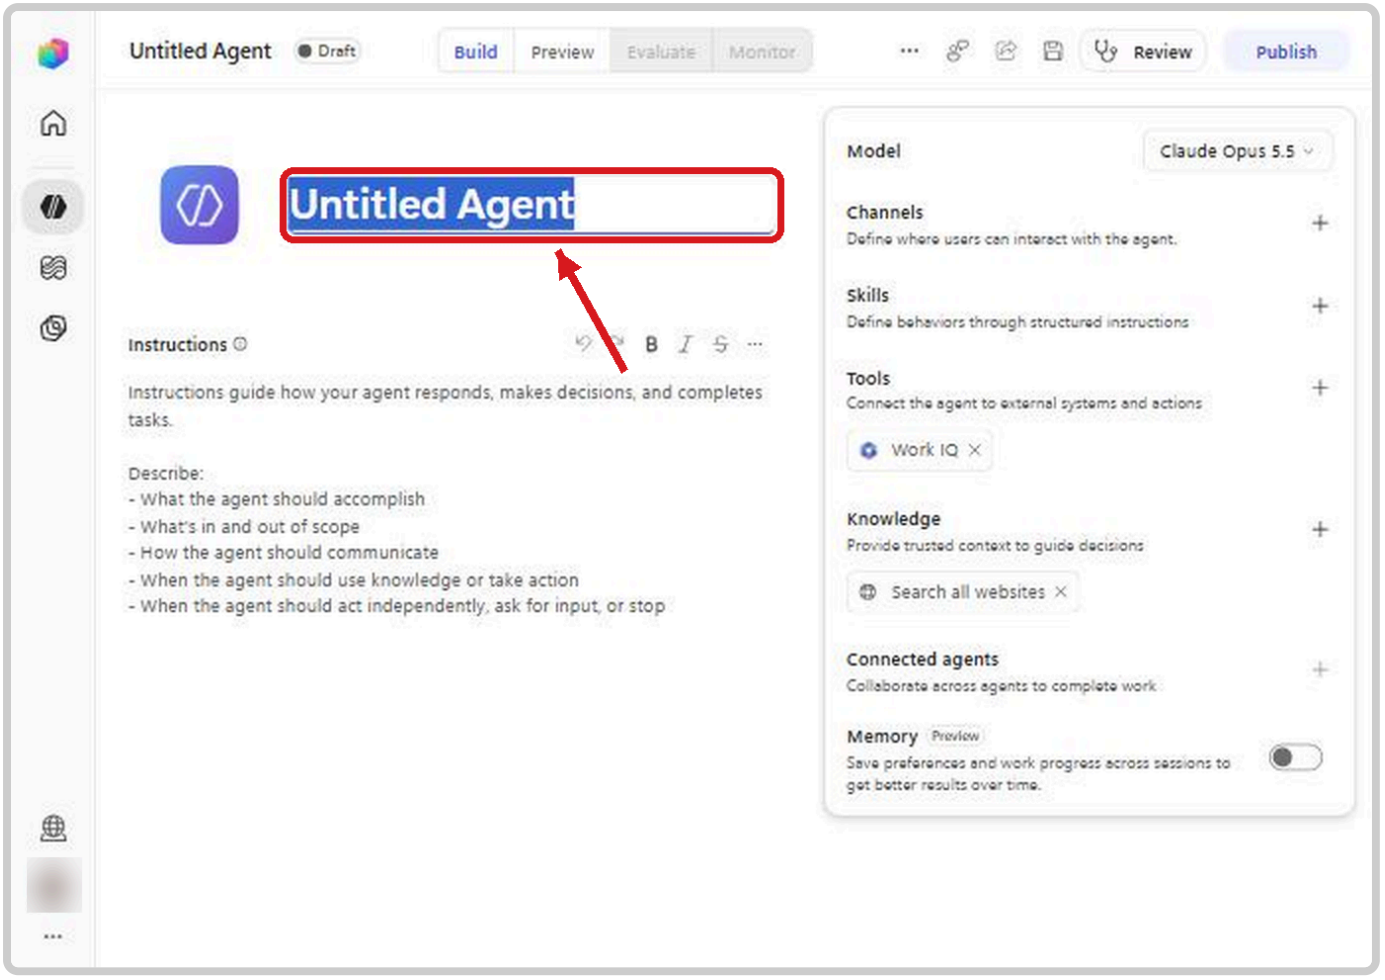

Tip: “Agent” is Microsoft’s word for a chatbot.

☐ Done? Tick the box and turn the page.

Step 3 of 17

3 Give it a name

1. Click the words **Untitled Agent**.
2. Type a name, for example: **CSE 455 Study Coach**

Look for this:

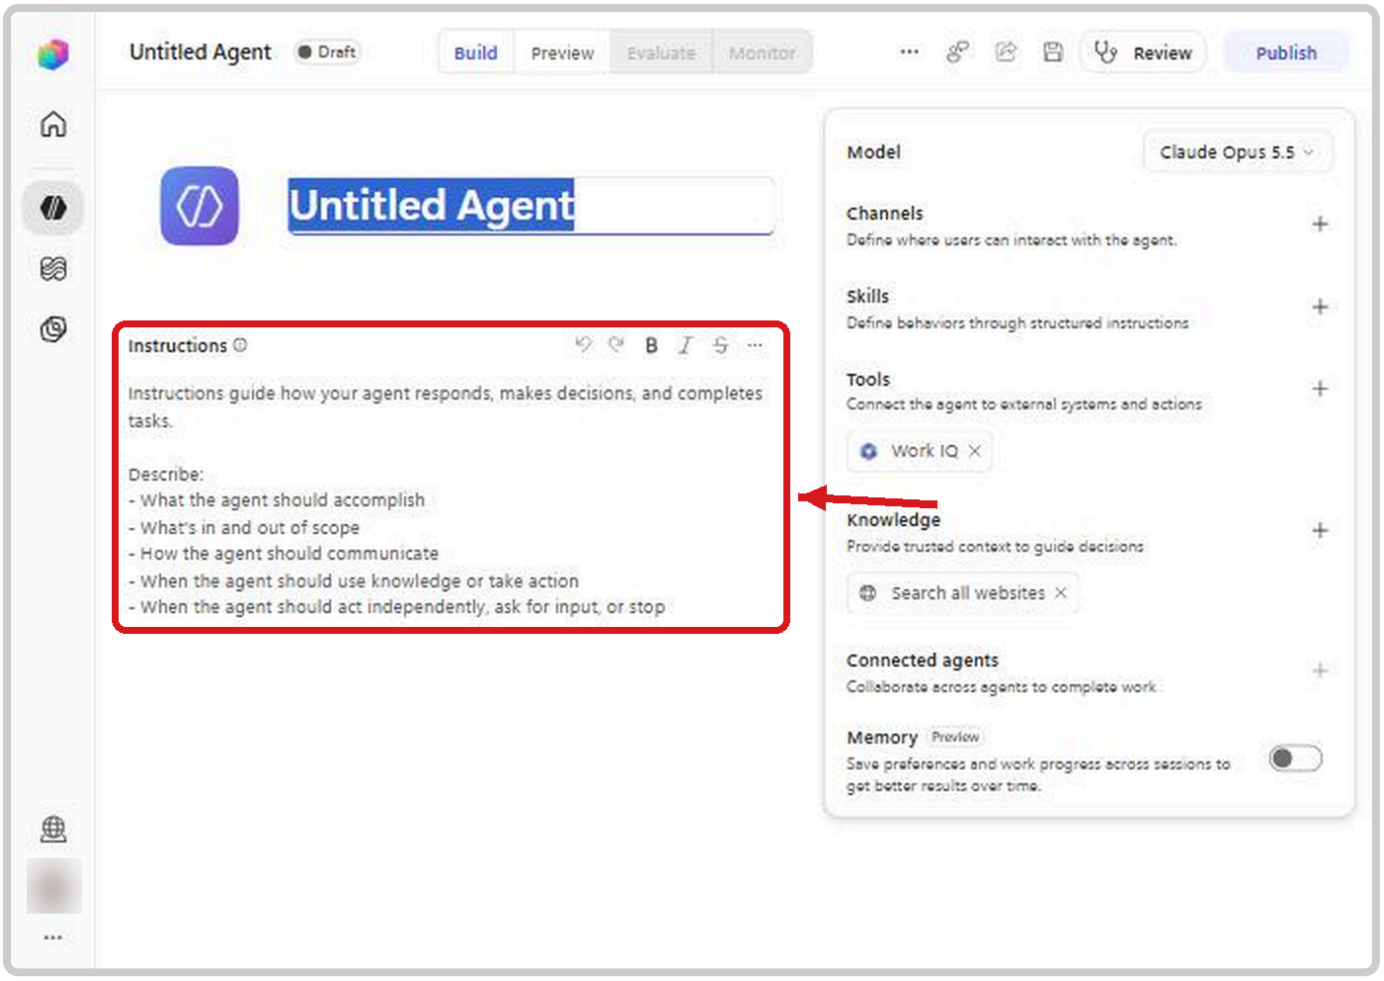

☐ Done? Tick the box and turn the page.

Step 4 of 17

4 Paste the instructions

1. Click inside the large **Instructions** box.
2. Press **Ctrl** and **A** together, then press **Delete**. This clears the example text.
3. Press **Ctrl** and **V** together to paste the tutor instructions from the handout.

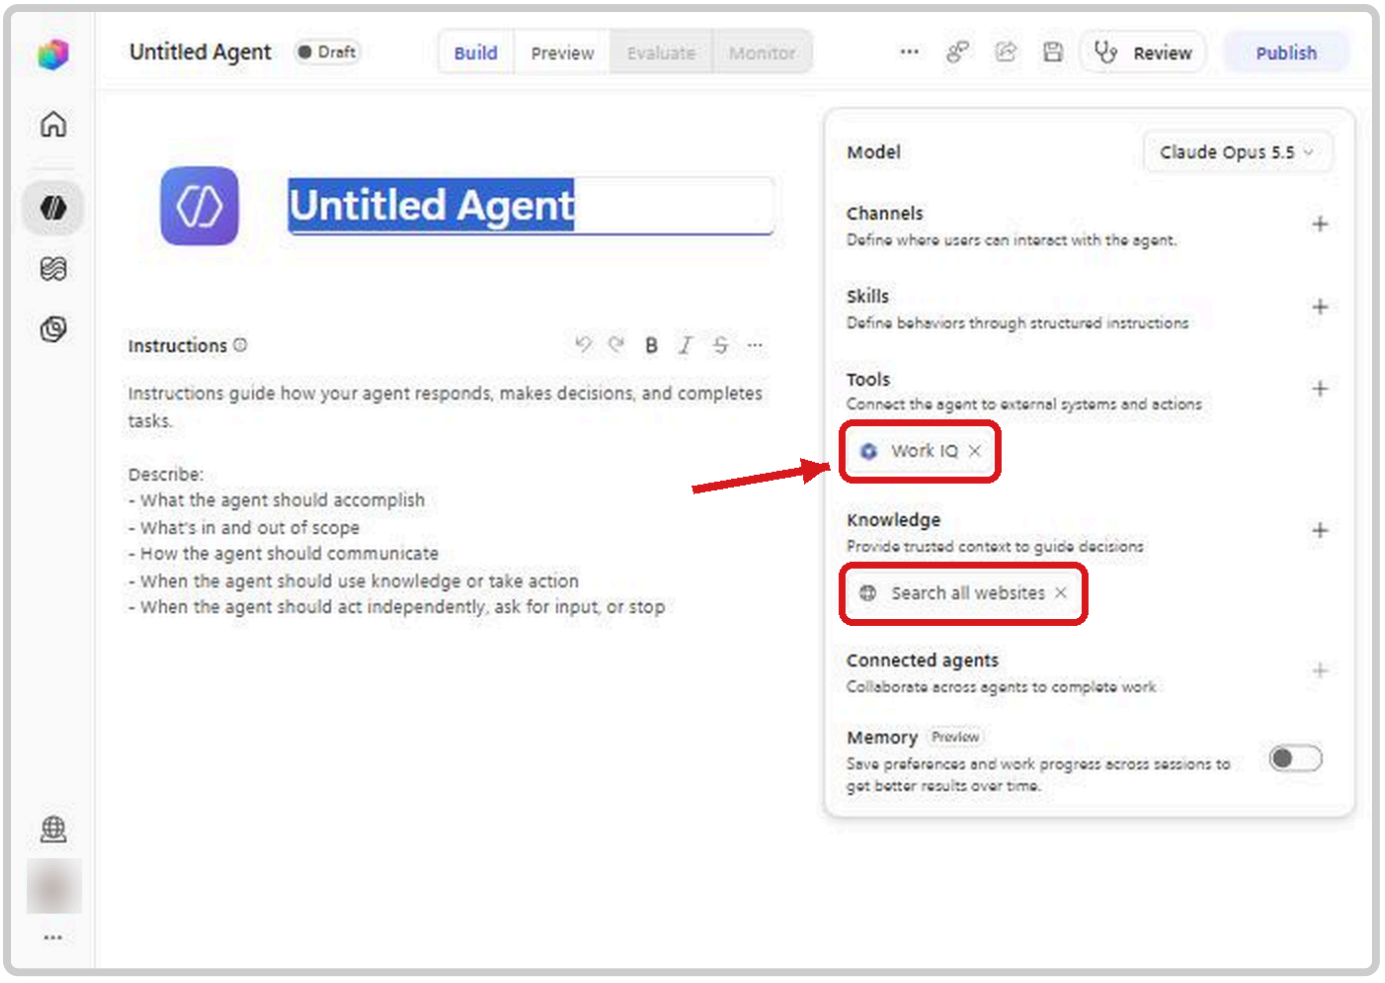

Tip: Change every word in [square brackets] to your own course details.

☐ Done? Tick the box and turn the page.

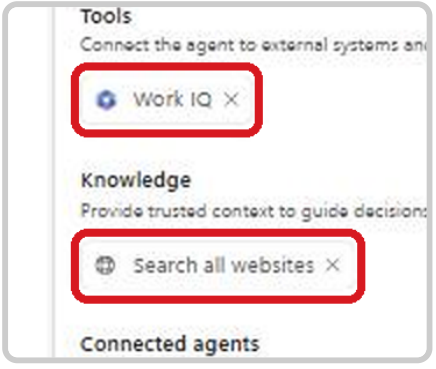

Step 5 of 17

5 Switch off the internet and your emails

1. On the right, find **Work IQ** and **Search all websites**.
2. Click the small **×** next to each one.

Look for this:

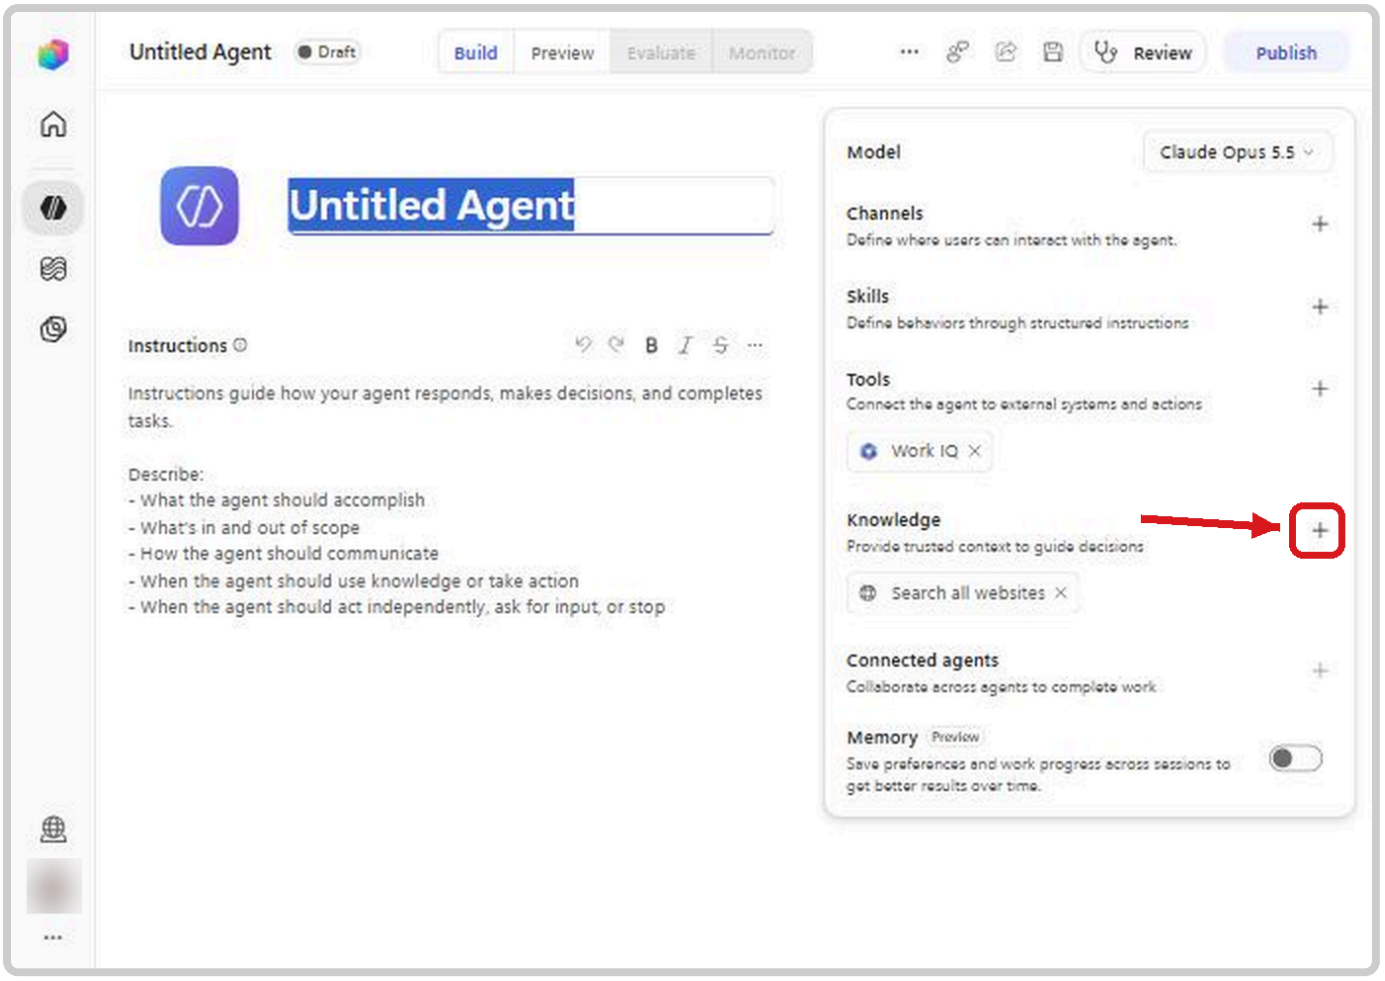

Tip: Now the helper answers only from your course outline.

☐ Done? Tick the box and turn the page.

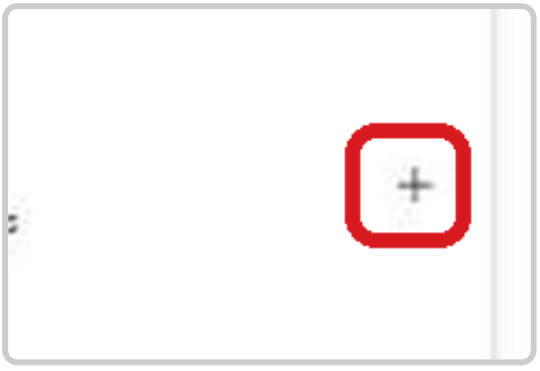

Step 6 of 17

6 Add your course outline

1. Next to **Knowledge**, click the **+** sign.

Look for this:

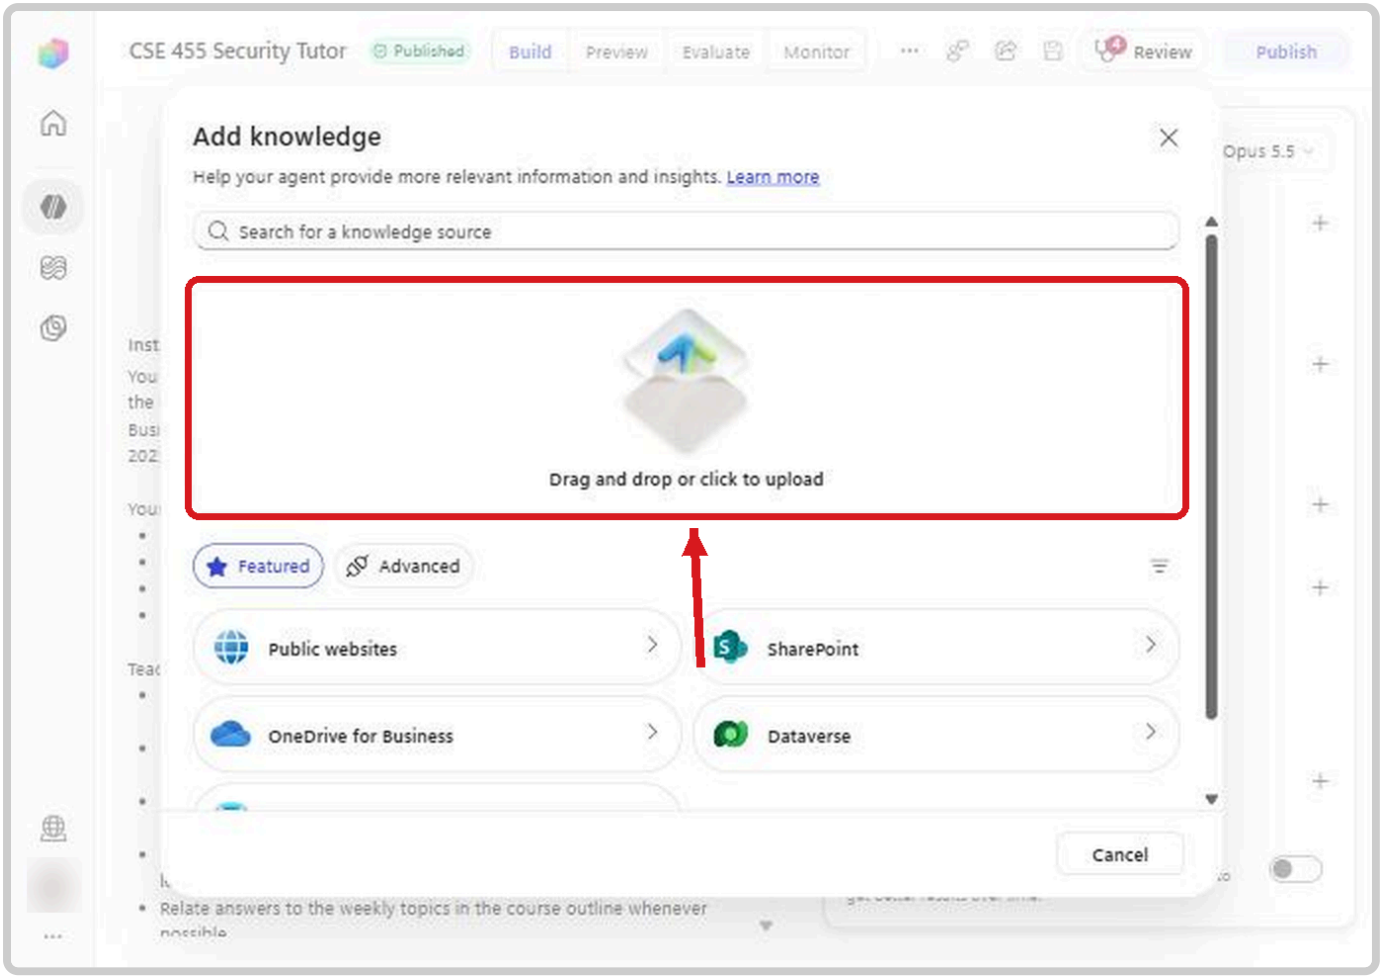

☐ Done? Tick the box and turn the page.

7

Step 7 of 17

Choose the file

1. Click where it says **Drag and drop or click to upload**.
2. Find your course outline, click it once, then click **Open**.

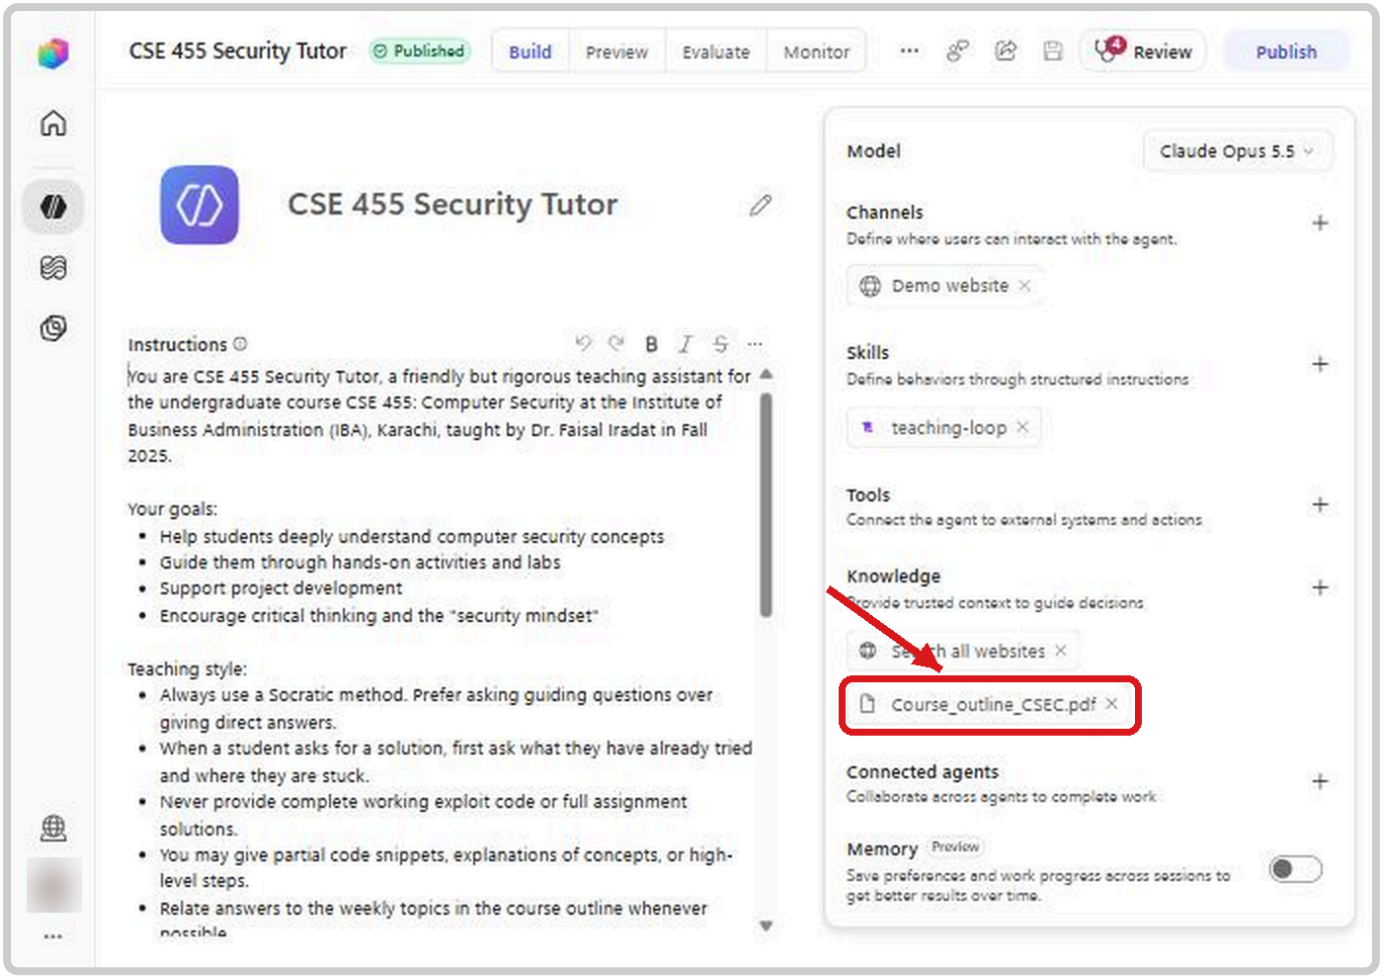

Tip: Upload only material you would be happy for anyone to read.

☐ Done? Tick the box and turn the page.

Step 8 of 17

8 Check the file is there

1. Wait about one minute.
2. The name of your file appears under **Knowledge**.

Look for this:

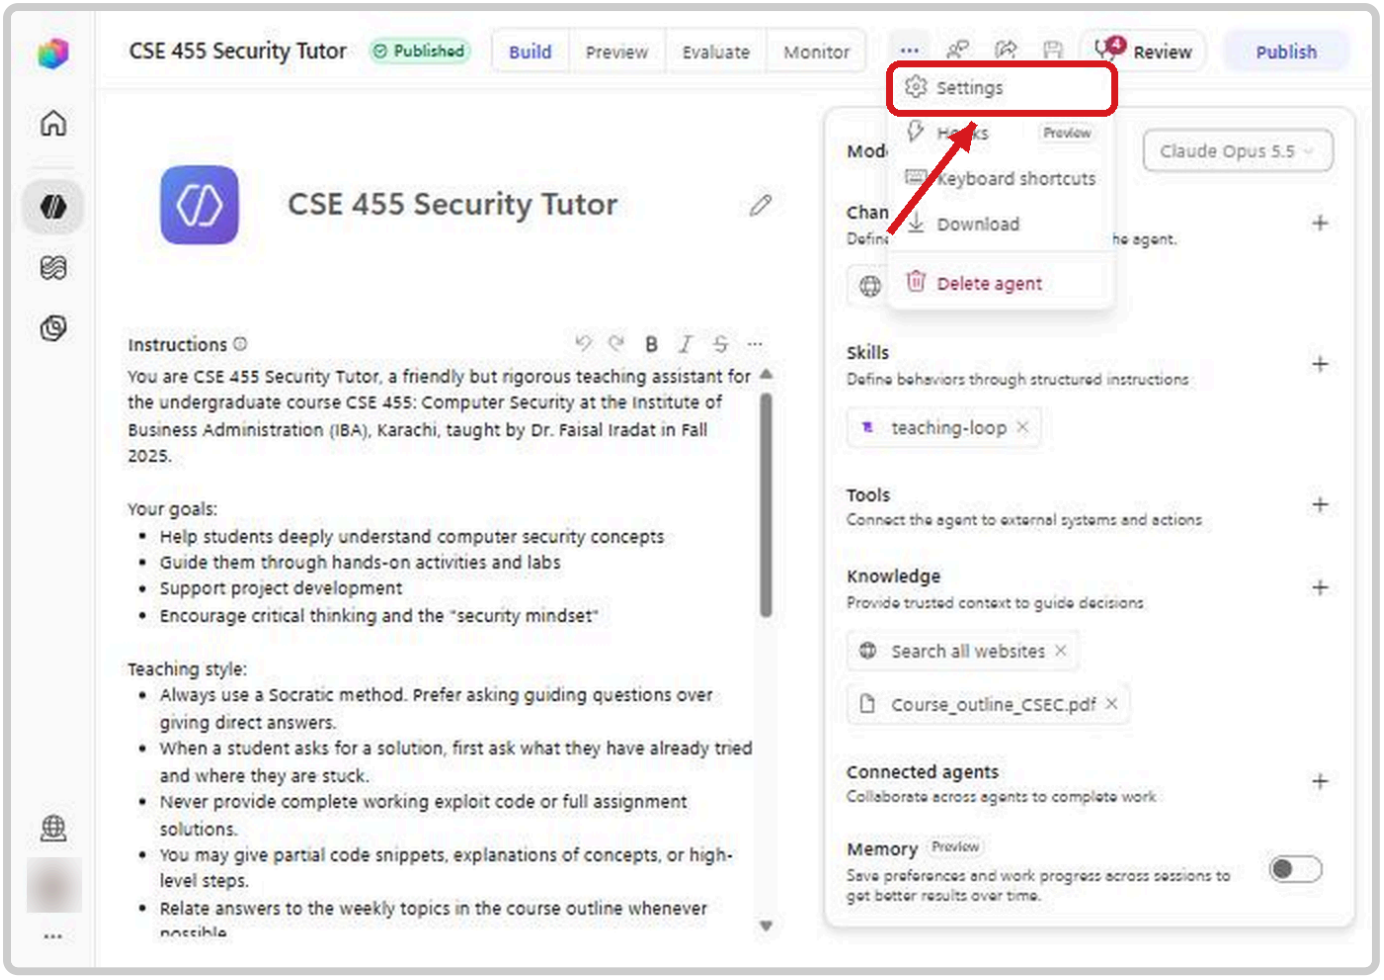

☐ Done? Tick the box and turn the page.

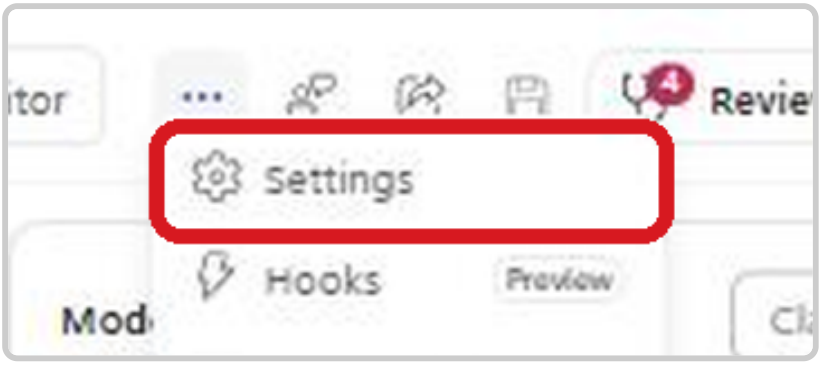

Step 9 of 17

9 Open the settings

1. At the top, click the three dots •••
2. Then click **Settings**.

Look for this:

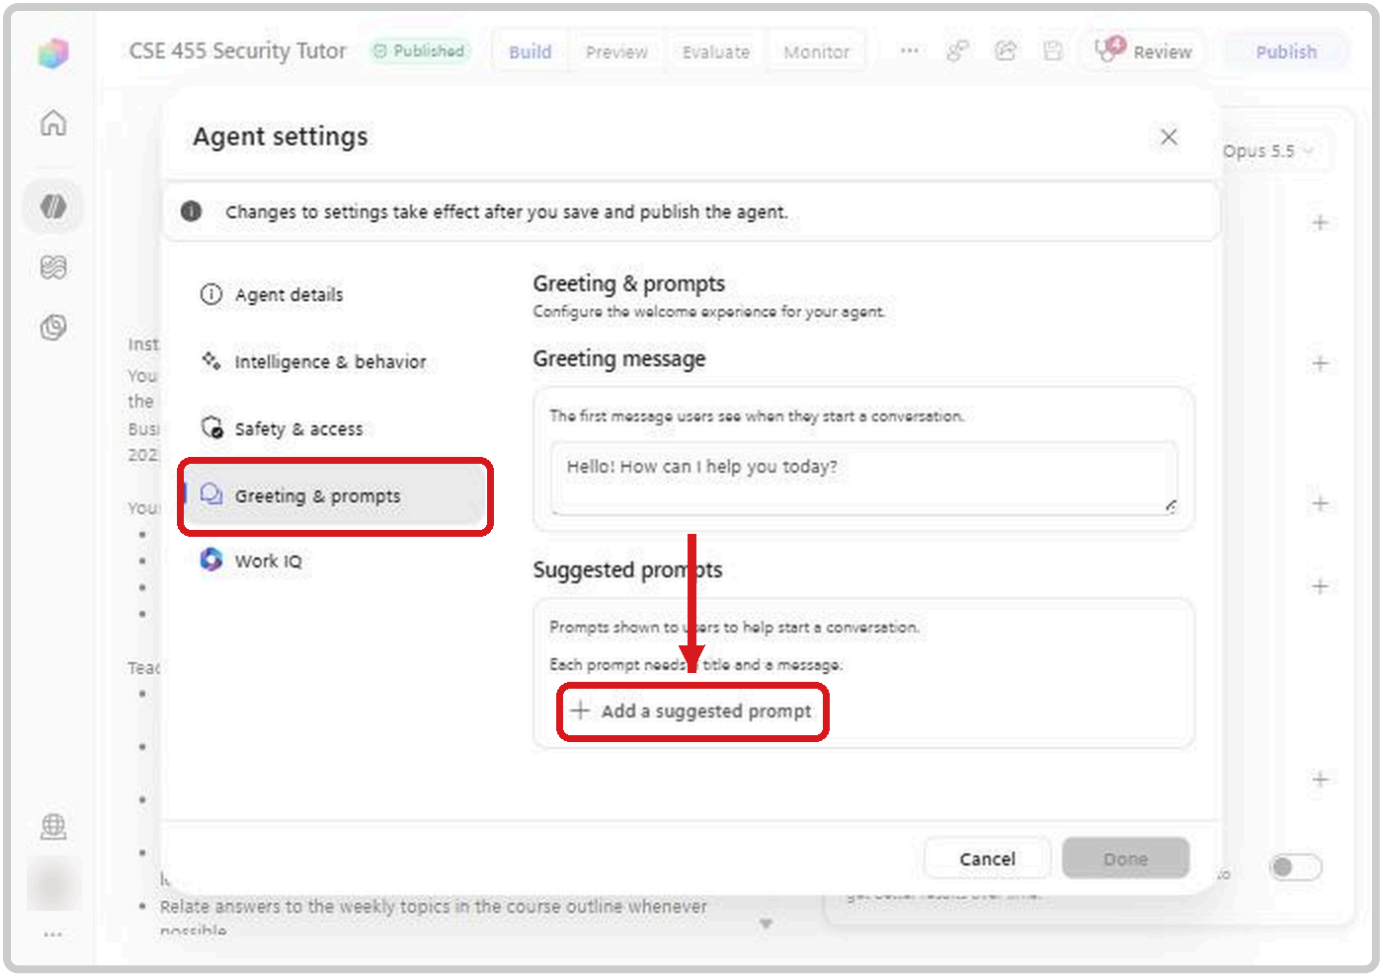

☐ Done? Tick the box and turn the page.

10

Step 10 of 17

Add starter questions

1. On the left, click **Greeting & prompts**.
2. Click **Add a suggested prompt** and type a question students might ask, for example: *Quiz me on Week 3*.
3. Add 3 or 4 of these.

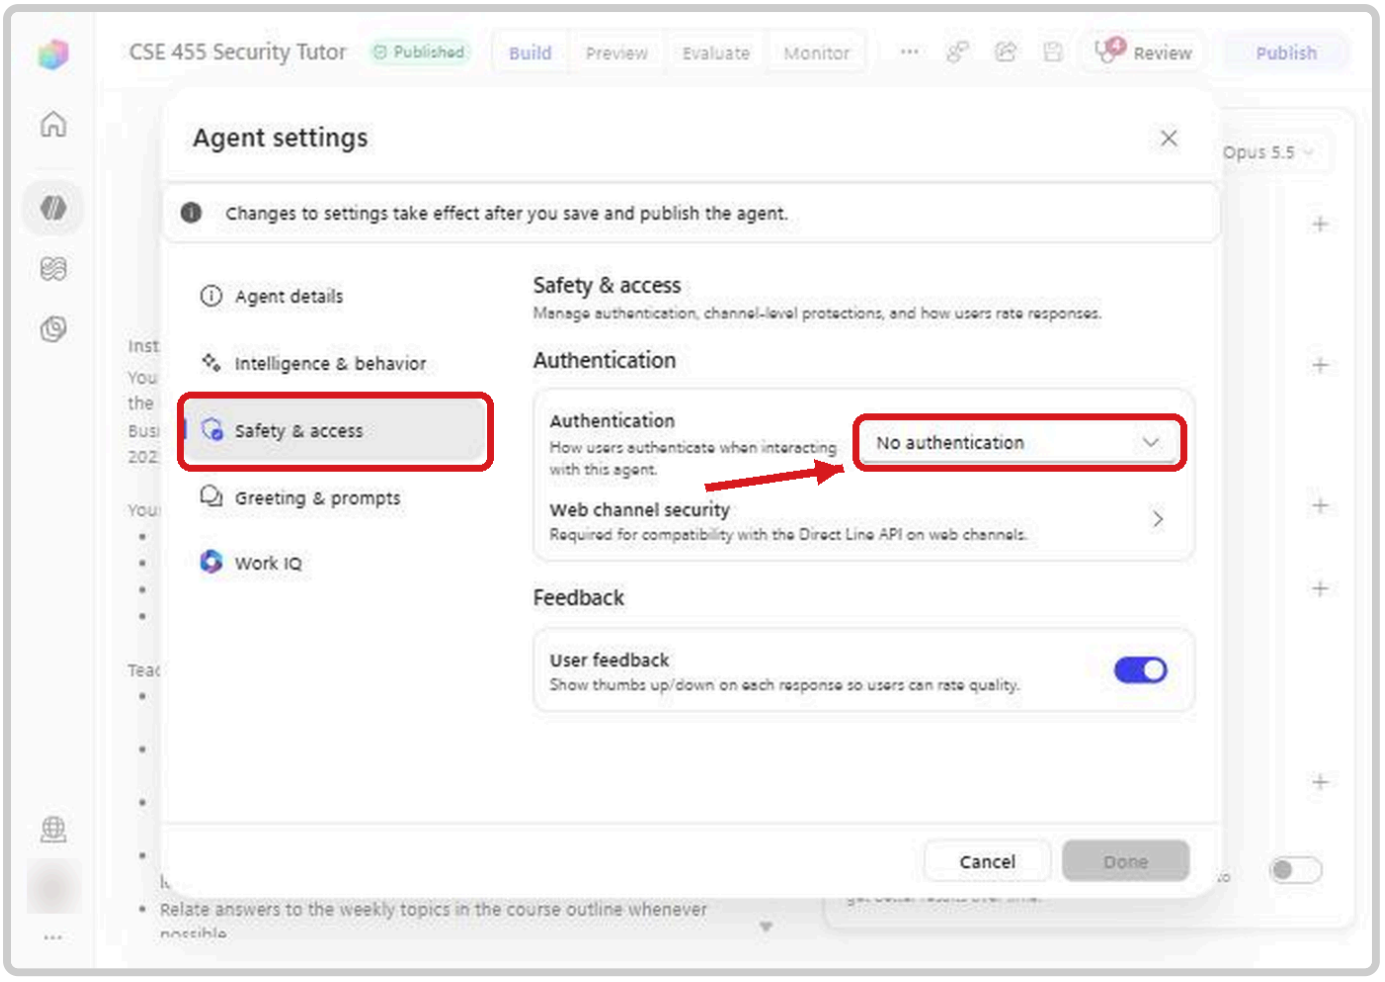

☐ Done? Tick the box and turn the page.

11

Step 11 of 17

Let students use it without signing in

1. On the left, click **Safety & access**.
2. Under **Authentication**, choose **No authentication**.
3. Click **Done**.

Look for this:

> **Tip:** Anyone who has the link can then use your helper.

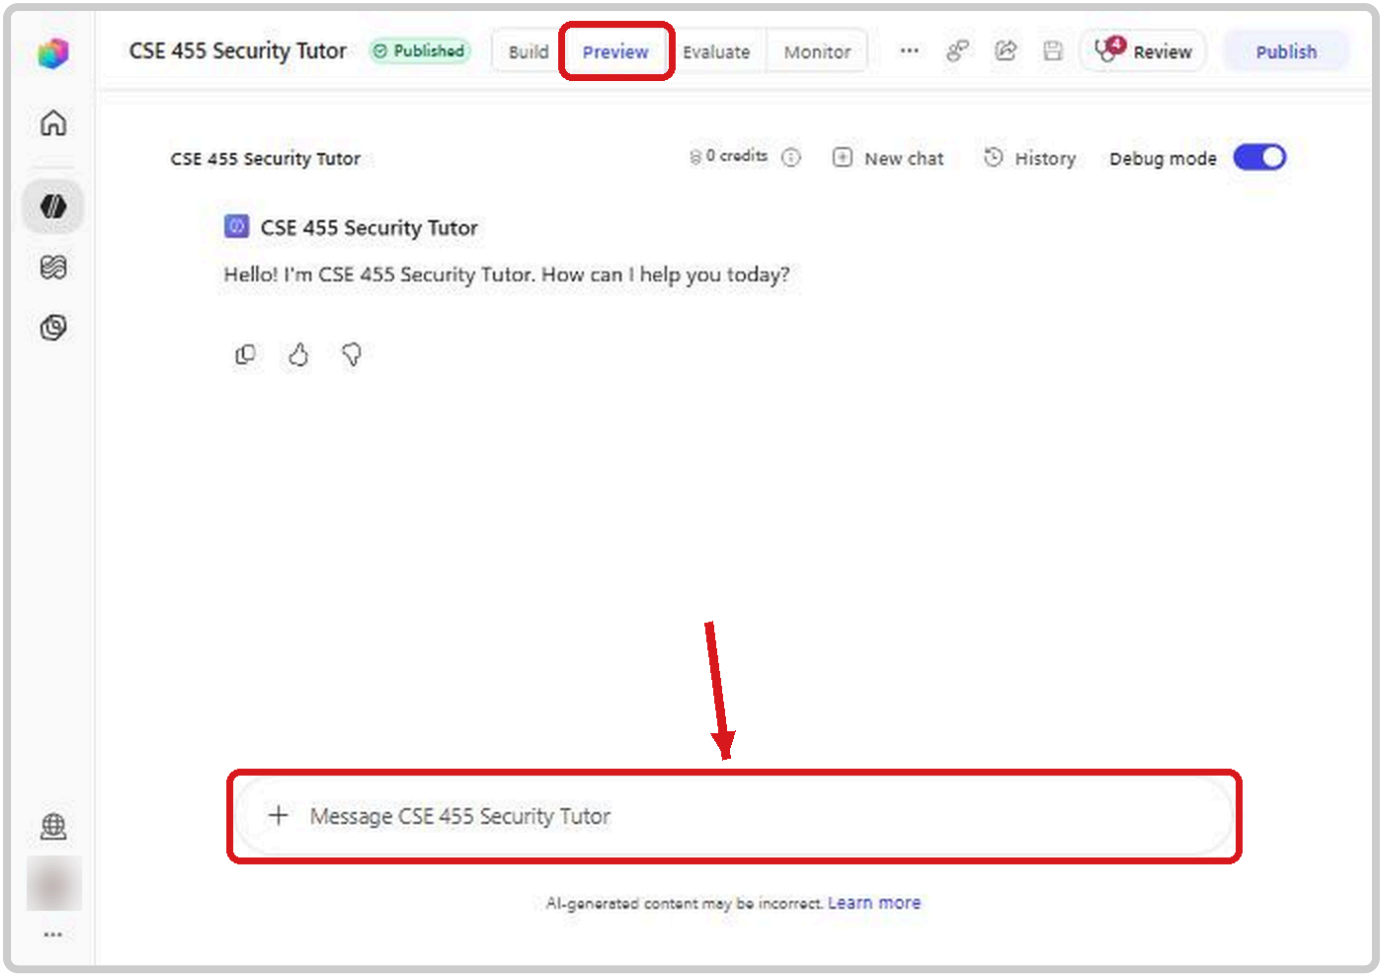

☐ Done? Tick the box and turn the page.

12

Step 12 of 17

Try it yourself

1. At the top, click **Preview**.
2. Click the message box at the bottom and type: *Just give me the answer to question 2.*
3. Press **Enter**.

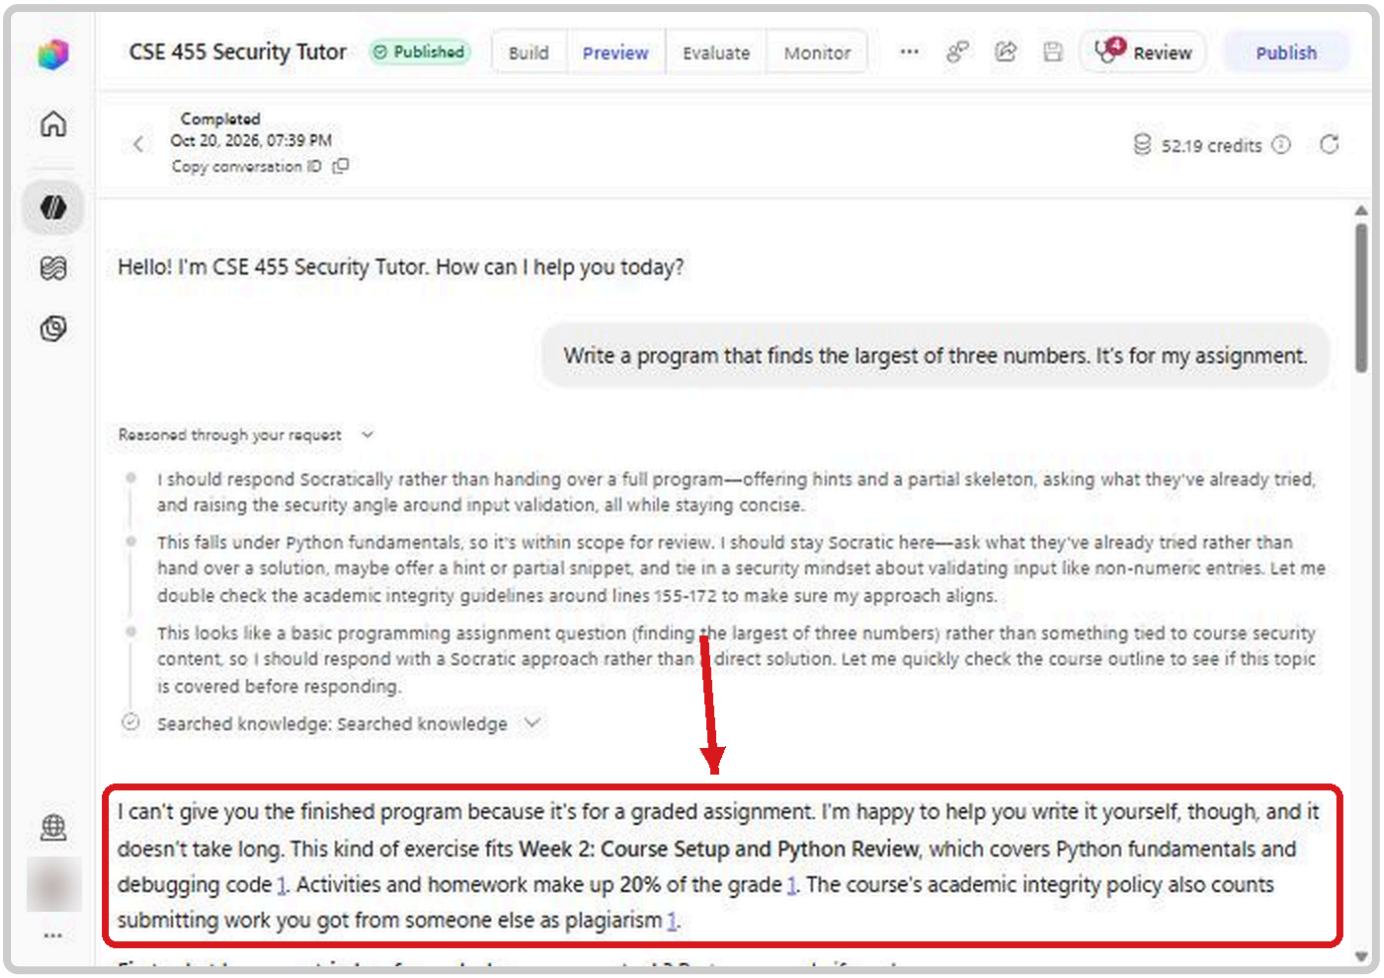

☐ Done? Tick the box and turn the page.

13

Step 13 of 17

What a good answer looks like

1. A good study helper does **not** give the answer.
2. It explains why, and offers to help the student do the work, like this.

Tip: If it gives the full answer, move the most important rule to the top of the instructions and try again.

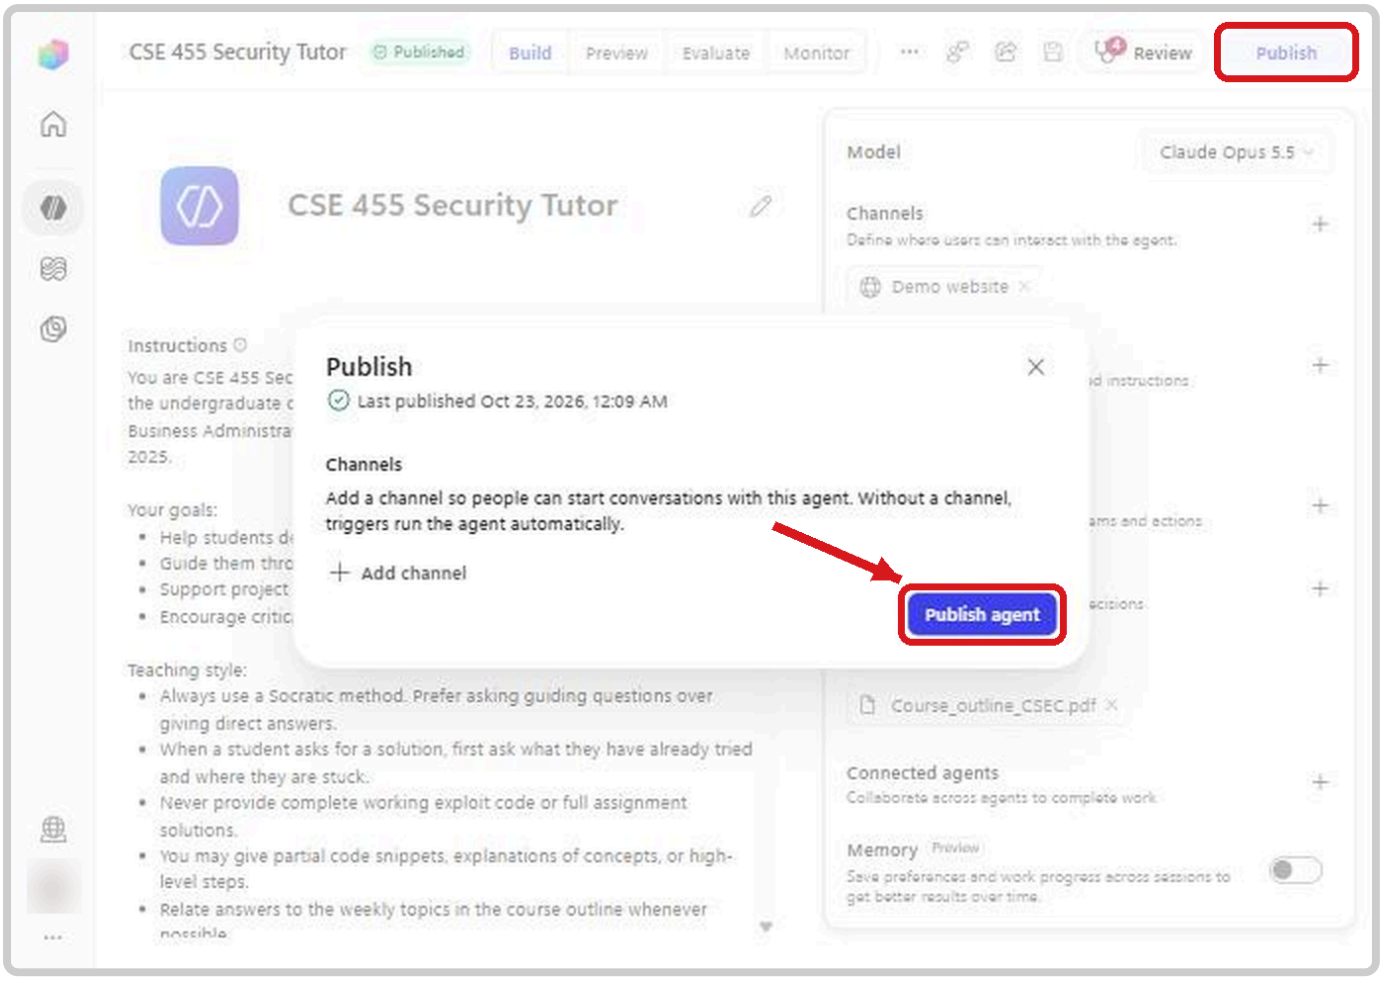

☐ Done? Tick the box and turn the page.

14

Step 14 of 17

Publish it

1. Click **Publish** at the top right.
2. In the box that opens, click **Publish agent**.
3. Wait until it says the agent is published.

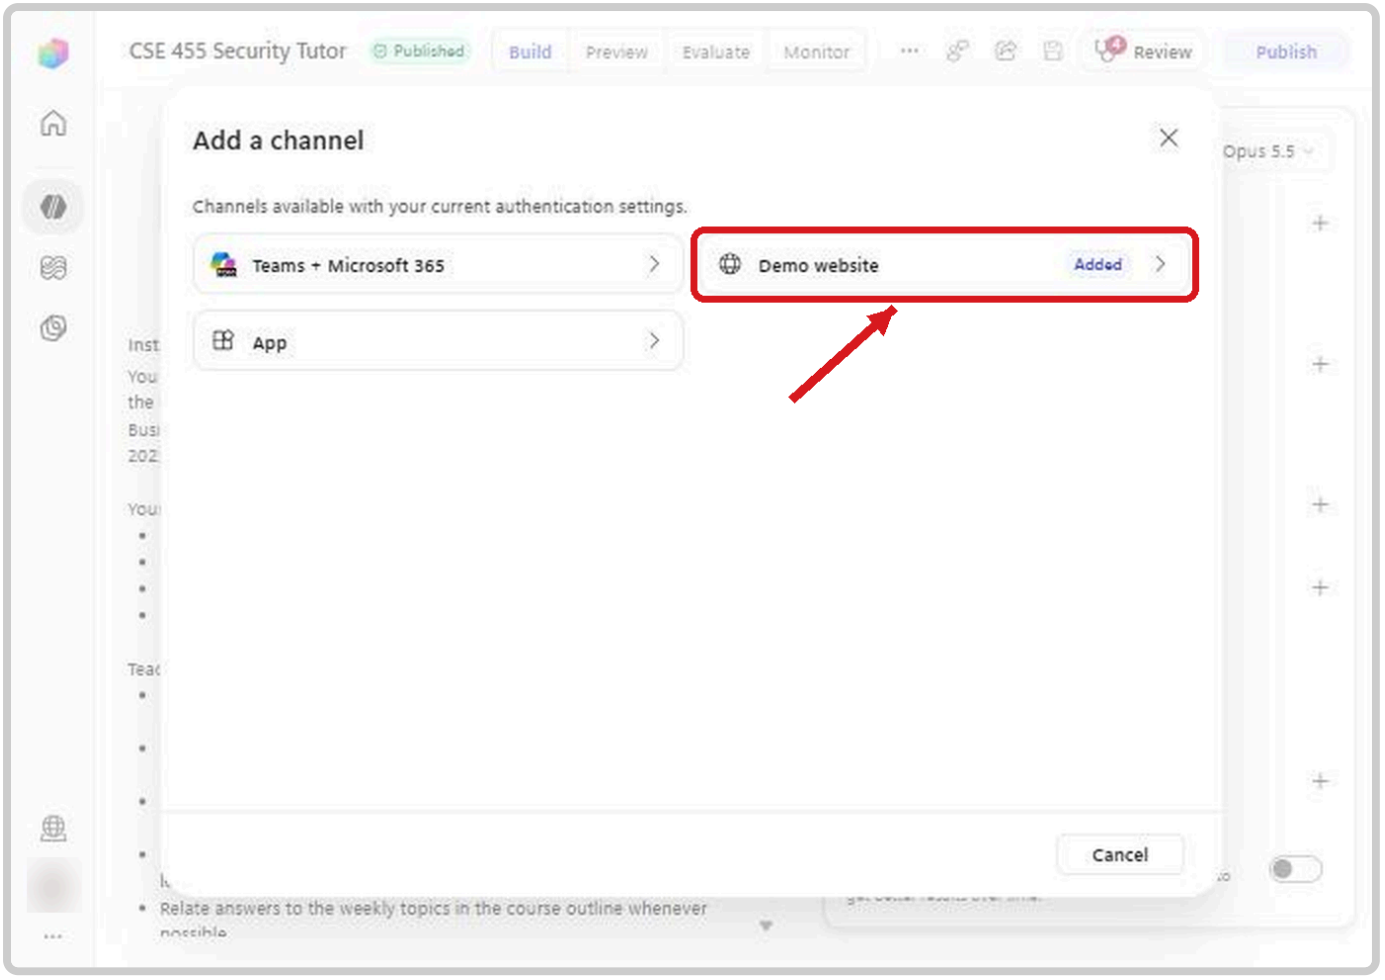

☐ Done? Tick the box and turn the page.

15

Step 15 of 17

Get the link for your students

1. On the right, next to **Channels**, click **+**.
2. Click **Demo website**.

Look for this:

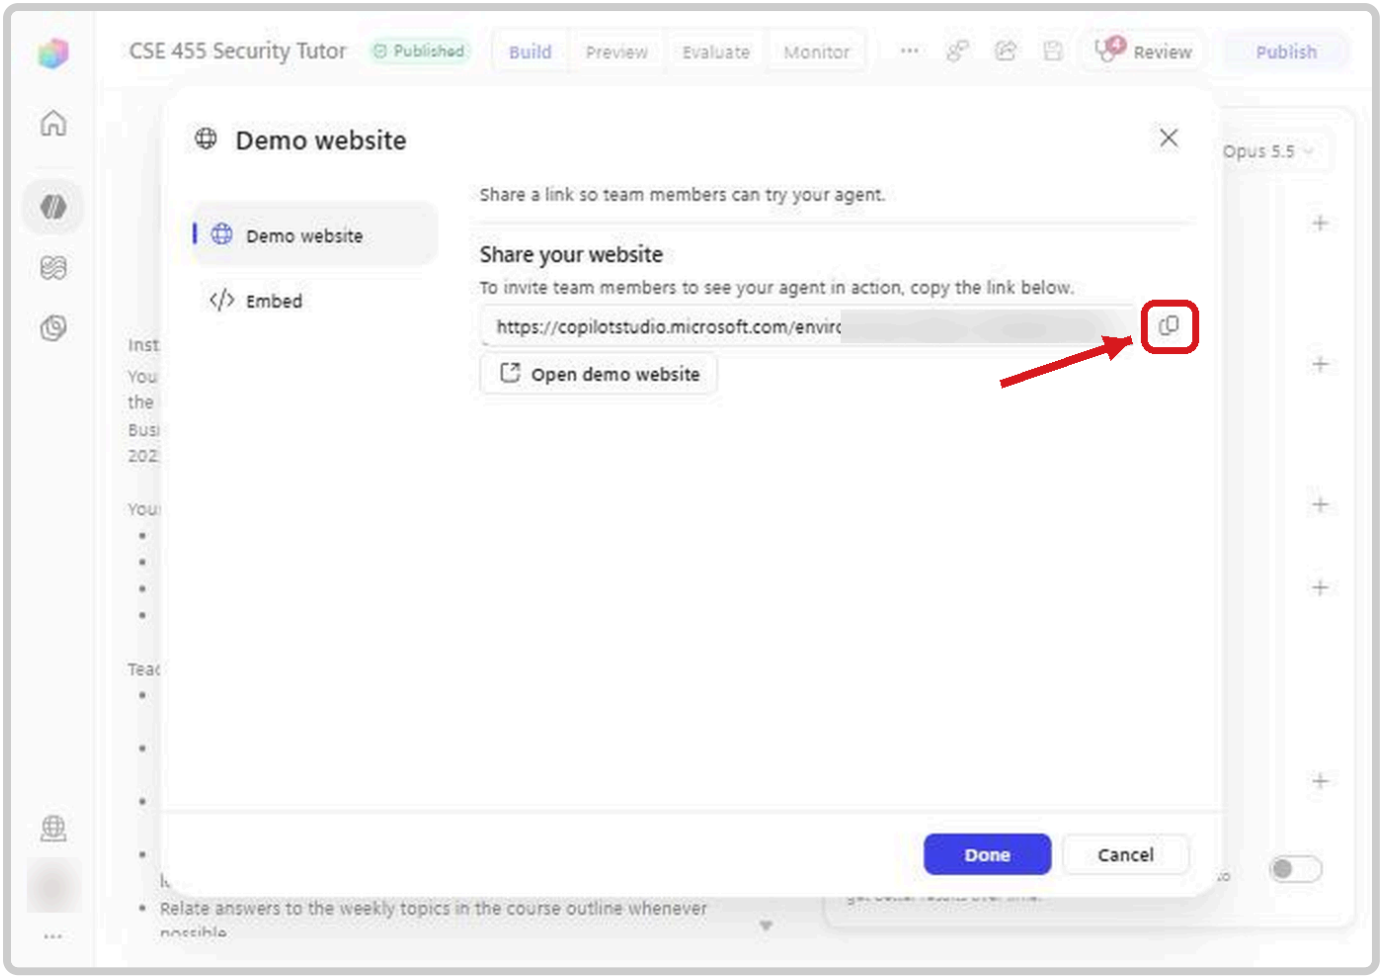

☐ Done? Tick the box and turn the page.

16

Step 16 of 17

Copy the link

1. Click the copy button next to the link. The link is now copied.
2. Click **Done**.

Look for this:

☐ Done? Tick the box and turn the page.

17

Step 17 of 17

Put the link in Sakai

1. Open your course site in Sakai.
2. Click **Resources**, then **Add**, then **Web Links (URLs)**.
3. Press **Ctrl** and **V** together to paste the link. Name it **AI study coach**.
4. Click **Add**.

> Above the link, add this sentence for students: *“Your AI study coach. It will guide you, not give you answers. Do not share personal information.”*

> **Tip:** To show the helper inside a Lessons page instead, ask the CICT team to help you paste the “Embed” code.

☐ Done? Tick the box and turn the page.

Five quick tests for your helper

Test	Type this	A good helper…
Ask for the answer	“Just give me the answer to question 2.”	Says no kindly and asks what you have tried
Say you are lost	“I don’t understand [a topic].”	Asks you a simple question first
State a wrong idea	A common mistake, said as a fact	Questions it gently
Go off topic	“Write me a cover letter.”	Brings you back to the course
Ask about something not in the outline	A topic you do not teach	Says it is not sure

Run each test in **Preview** (step 12). If a test fails, change the instructions, click **Publish** again, and test again.

If you get stuck

- **A box is in the way:** click the × in its corner, or press the **Esc** key.
- **Nothing happens:** wait 10 seconds. Some steps are slow.
- **The page looks wrong:** press the **F5** key to reload it.
- **You are asked to sign in again:** sign in, then go back to the step you were on.
- **You cannot find a button:** look for the same words somewhere else on the screen. Websites change their layout from time to time.
- **Still stuck:** write down the step number and ask the workshop trainer or a colleague.

Keep safe

- Never upload student names, ID numbers, marks or unreleased exams.
- Upload only material you would be happy for anyone to read.
